Dear Friends - Namskaar, Best of Life

For the last hundreds of years all kinds of delicious/ordinary food/ stuff mixed with synthetic chemicals available across the world have not been having the capacity which can produce 2000 to 2500 units of heat energy (calories) required in a day in our complete metabolic system and immune system. Earlier to this present time, the only Meal itself which used to be free from synthetic chemicals was almost capable to meet day to day nutritional requirements of our body by which all the organs, cells, tissues of our body were automatically nourished to some satisfactory extent. Our body is made of natural chemicals not made of synthetic chemicals therefore it should be given only natural chemicals. On the other hand produced calories are also burnt in proportion to our various activities a day and Today's unsafe and flavored food eaten by us in disturbed life style is not capable to excrete maximum waste product and produce sufficient nutrients. Moreover, the acceptance of produced nutrients by the functions of organs for their nourishment again stands in question because of disturbed or absence of NUTRITIONAL STATUS in us.

Thus, deficiencies in our body keep on accumulating and diseases start appearing gradually. Rich and enlightened people keep on eating hundreds of expensive Tonics, Vitamins, Drugs, Tablets available in the markets all over the world selectively after realizing the above mentioned difference and facts of deficiencies. In the long run when they do not feel satisfaction, betterment then keep on changing with other available products telling and offering also others to eat, but do not get much success despite being in contact with doctors for next many years, their clinical problems remain as it is because of the hidden impacts of frequency of beginner diseases like Fever, Cold, Cough, Head-ache, Body-ache, Upset Stomach, inflammation, impaired digestion, Dehydration, Constipation, Weakness, Fatigue, Loss of appetite, Blood problems, muscular, orthopedic, neuro problems etc remain existing and all such enjoyments and indoor games are played by all the above mentioned impacts and other critics in our bodies because of disturbed equilibrium of Tri-Doshaas – Vaat, Pitta, Cough in our body and approximately 80-90% of produced cough which should be drained out mixed with the produced waste of eaten stuff/food in our body is not properly drained out and balance 20-10%

cough which should be drained out mainly through the nose-trills gets imbalanced, thus this disturbed attitude of metabolism keeps causing number of clinical problems/troubles all through the life.

Regular Intake of our powdered mixture plays an important and significant role in our body removing developed waste product and contamination to its drainage system on day to day basis thus regular cleansing in our body automatically nips all bad bacteria in the bud itself in the due course of time and paves the way to good Bacteria to overcome bad Bacteria. In medical text books cells in our body are said to be the basic unit of life. All above mentioned beginner diseases in the long run start affecting cells, tissues and walls of organs. Number, size and functional capabilities of cells start diminishing and formation of artificial/negative cells is started thus entered diseases start contaminating and weakening all the organs and other parts of the body gradually and subsequently take a formidable and corrupt form raising the critical situation of commonly called 5 to 6 types of Cancers. Thus, the above referred favorable condition of cleanliness of metabolism keeps allowing Organs properly and capably functioning automatically not by taking hundreds of synthetic chemicals mixed medicines/tonics for individual ailments, the automation of integrated functions of organs of which is usually disturbed by human mistakes intermittently nothing else.

Therefore people keep on spending plenty of their hard-earned money on various medical Tests and could not get exact clinical remedies and ultimately become reluctant and melancholy even at the doorstep of early reversal of physiological changes. When these diseases catch root in our body, we do not come to know of these. These initial diseases slowly keep on absorbing and evaporating our natural power secretly given by the nature and also the reserves of our God gifted energy and the micro-nutrients that were kept reserved in us by our metabolism to counter diseases/clinical disturbance, those reserves also keep getting emptied just because of spreading particles of waste product and contamination in metabolism the small problem of which one day starts creating multiple mysterious and unknown ailments. This double mortality is depriving even our fast growing next generation of their rights to develop speedily and piling up hurdles to the extensive development of this fast growing Era.

Therefore, this mixture of ours plays a very important role on daily basis and thus God-gifted reserves automatically are kept safe too resulting in prolonging stage of reversal of physiological changes. Keeping an eye on all these conditions for the last 45 years since 1977 after gaining great experience of getting victory over the above clinical problems in first 10 yrs I can authoritatively declare that this unprecedented mixture will prove to be very beneficial to the masses. Please don't take above explanation for exaggeration to this Nutraceutical Supplement product which is free from heavy metals and not claimed as drug.

Theme of effect of this composition - This mixture contains least stuff and has too much nutrients and on the other hand Food/Meal have too much stuff and produce insufficient nutrients, now you can understand that we cannot eat double the meal or food to meet the nutritional requirement on daily bases to maintain also a nutritional status in us, we can eat only that much which our stomach allows us to eat, that is why people must take this strongly effective "Nutraceutical Supplement" of ours because its regular consumption maintains our appetite and a NUTRITIONAL STATUS is gradually developed in metabolism which is said to be a suitable condition for good health.
